PAGES 10 TEMPLATE SYSTEM BY KEYNOTEPRO

Introducing OM X for Pages

By KeynotePro

Breathe new life into your documents with OM X for Pages 10 - a soothing, sophisticated general purpose template system that will deliver your message in style & simplicity.

The OM X templates for Pages, like their Keynote counterparts, were designed with an eye toward simplicity, creating a defined structure around the interplay of color, accent and negative space.

Crisp contrasts of the signature colors - including updated palettes with richer, more contemporary hues - break components of each layout into its principal parts.

What results is a highly organized, stylish system that's as easy to work with as it is on the eyes.

The core OM X for Pages package includes a full suite of up to fifteen complete templates (Pro Edition) – from the basics of Letterhead, Memo and Envelope templates to Posters, Brochures and the magazine-inspired Newsletter – giving you a wide range of document types and layout options to choose from, whether you're preparing an Agenda for the weekly meeting or assembling next season's Quarterly Report.

An extensive suite of layout options — including Color/Light variants & a full selection of Mosaic options — provide you with an unparalleled selection of tailored alternatives for key layout archetypes. And the entire OM X framework is optimized for everything the modern Pages architecture offers, including a full suite of color, type and table styles.
