# Introducing Geneva for Pages 5.x/6.x

By KeynotePro

**The crisp, ordered clarity of Geneva is now available for Pages, too. Designed from the ground up to communicate your message with a clean, objectively straightforward style.**

The Geneva templates for Pages, like their Keynote counterparts, pay homage to the ethos of classic Swiss design and the International Typographic Style with a distinctly modern take on the tenets of the timeless, minimalist style.

Colorful Title & Callout layouts bookend a range of crisp, white Content and Narrative layout styles, all set against a refined, classically-informed grid with an intuitive visual hierarchy.

Geneva for Pages includes up to 15 complete templates (Pro Edition) in both US(Traditional) and ISO(Metric) formatted template bundles, each including template-specific Page Masters that are built to extend upon the core character of each document style.

From the basics of Letterhead, Memo and Invoice to Project Proposal, Report, Newsletter and Brochure templates, your essential document/collateral types are covered - including a range of in-template variations so you can pick both the document type and the layout style that's right for your specific needs.

Can't imagine leaving your favorite portable device out of your work-flow? The Geneva for Pages templates are fully compatible with Pages for iOS, so you

**Geneva for Pages includes a full suite of 15 Templates - giving you a wide range of document types and layout options to choose from.**

can transfer a document using the Geneva templates to your iPad or iPhone for reading or editing with no updates or special workarounds required. Or collaborate with colleagues in real-time, whether they're on a Mac, iPad, or iPhone - even on a PC using iWork for iCloud - with consistent results regardless of the device you're using.
